Winston Churchill School**

Being on the waitlist DOES NOT guarantee enrollment. We are aware of the difficulty in securing childcare spaces in the community, and of the long waits to secure a spot. We strongly advise you to look for alternative care.

About our Program

Out of School Care is a warm, nurturing and inclusive program that is essential to our community. It is a safe, secure place where we strive to meet the needs of children, individually and as a whole. The environment allows children to make choices and develop relationships with peers and adults.

The program is operated by the Odyssey Community Childcare Society. The director, board and staff will ensure the program works together with the families to meet the needs of all involved. The Out of School Program is staffed with qualified childcare professionals and each program follows the child ratios for licensing regulations.

Providing Services for:

- College Park School
- Jack Kemp School
- Queen Elizabeth School
- Rendell Park School
- Winston Churchill School

The Program will observe and acknowledge the individuality and uniqueness of each child by addressing their individual needs and interests and provide them with opportunities to achieve their full potential and give them the tools to meet the challenges in their daily journeys.

Children's developmental needs will be met with physical activity, positive interaction, structure and clear limits, opportunities to develop and use their talents and skills and share their interests.

Interaction and communication with children will be positive and respectful and support the child's social-emotional and intellectual development.
